MANMEET MAHINDERJIT SINGH , PHD

University Sains Malaysia (USM),Penang

Secure Net (RFID/NFC/Wearable Sensors)
Secure Applications (Ambient Intelligences, Mobile Crowdsensing , Fog Computing / Smart Homes , IoT-enabled Education, Context Aware Systems, Autonomous Systems, Smartphones)

Secure Internet of Things (IoT)

(Spamming, Advanced Persistent Threat(APT) , Biometrics (HAR, GAIT,Keystrokes, etc), Cyber Security, Privacy Fundamental (Frameworks , Techniques and Approaches) Cybercrime Prevention & Detections

Information & Cyber Security

Trust Theories & Models(Social Media/LBS/ IoT/ Cloud Computing)

Trusted Models

"Towards a systemic cybersecurity resolution for emergent technology."

Data Mining

Intrusion Detections , Cost-Sensitive Techniques, Alert Management, Misclassification Reductions, Adversarial Machine Learning
